IN THE MATTER OF AMENDMENT OF THE COMMISSION'S REGULATORY POLICIES TO ALLOW NON-U.S. LICENSED SPACE STATIONS TO PROVIDE DOMESTIC AND INTERNATIONAL SATELLITE SERVICE IN THE UNITED STATES. The Commission streamlined the regulatory process by which non-U.S. satellites may access the United States, while ensuring that foreign entry is consistent with U.S. satellite policy and is otherwise in public interest. Thus procedural changes should reduce the number of earth station license modification requests, and results of substantial savings, and allow more rapid service to the public, and should increase competition in the U.S. market for fixed-satellite service in the conventional C and Ku bands, providing consumers with more choices and better prices.
